

PREVENTIVE DRUG LIST

Revised 10/2017

This Preventive Drug List contains medications that are used for the prevention of or the recurrence of certain diseases. This list is based on the nature of the drug, not on individual circumstances for which the drug may be prescribed.

Your plan's formulary and tier status apply to the medications on this list. If your plan has a closed formulary benefit, drugs that are non-formulary would not be considered preventive (even if they are included on this list). Step therapy, prior authorization and quantity limits are also applicable and will be subject to review. This list does not apply to excluded drugs (non FDA-approved, medical foods, etc.) and only applies to non-formulary drugs if a formulary exception has been approved. When part of the benefit, the Generic Advantage Program may be applicable.

Some plans include diabetic drugs, equipment and supplies as part of the medical benefit and therefore a different cost share may apply.

This list does not indicate coverage. To confirm coverage or receive a complete description of your pharmacy benefit (including information regarding tier placement and coverage requirements such as step therapy, prior authorization and quantity limits), call the Customer Care number on the back of your Member Card.

This list is periodically updated to ensure that the drugs listed meet the criteria for inclusion.

Drug

BLOOD GLUCOSE REGULATORS

ANTIDIABETIC AGENTS

ACARBOSE
ACTOPLUS MET
ACTOPLUS MET XR
ACTOS
ADLYXIN
ALOGLIPTIN
ALOGLIPTIN-METFORMIN
ALOGLIPTIN-PIOGLITAZONE
AMARYL
AVANDAMET
AVANDIA
BYDUREON
BYDUREON PEN
BYETTA
CHLORPROPAMIDE
CYCLOSET
DIABETA
DUETACT
